

Rehabilitation E-NEWS

Welcome to the first edition of Rehab-Care E-news!! Rehab is an organisation committed to the success of your rehabilitation. We are here to support you on your journey to recovery.

Good news stories!

Home from Hospital....

In the last six months we have successfully returned a farmer who had a spinal injury to his home the farm with 24 hour support and a successful transition home. This courageous farmer had our full support the whole way, we created the care plan, the discharge plan, helped coordinate the training and any other details needed and most importantly careful planning to make sure we were all on the same page! We recruited and trained a very special and committed team who have supported each other to continue to provide the best quality of care every day.

Holidays...

This year four adventurous men jetted off for the adventure of a lifetime to New Zealand! They set off across blue divide.....

Volunteer to paid work!

Our Commitment to Clients

These results make a real difference to someone who has been in the hospital system and restricted in their independence. We have helped hundreds of people young and old to transition back home from hospital after a traumatic event, car accident, stroke, workplace accident or fall.

We cover all aspects of your rehabilitation journey and support you to get back home.

We can support you with:

- ❖ Occupational Therapy services,
- ❖ Attendant care,
- ❖ Community Access Planning,
- ❖ Rehabilitation groups and holidays.

We value your goals as our own and the determination to achieve them.

The focus on rehabilitation goals includes:

- 1) Your own Rehabilitation consultant who is a trained nurse or O.T
- 2) Services coordinated to suit you and to work towards your goals.
- 3) 24 hour service.
- 4) Trained and qualified staff.
- 5) Free consultation – see how we can help you or your family member achieve your goals,

Each year we provide over 200,000 unique care hours that support families in the community who have been affected by an accident or fall, stroke or neurological disorder. We understand that helping you get up, dressed and going is just the start of your rehab, however every journey starts with one forward motion.

Our values:

We are always prepared to 'give it a go'

We are nimble, flexible and easy going.

We always ask: "what can I do next?"

We are friendly and make positive first impressions

We make people smile with our personal and understanding approach

We take the time to celebrate milestones and successes

We are always on time

We always do what we say we will do

**Coming up in the next addition we will announce our
upcoming training forum:**

"Specialist person centred planning"
